4 year program – PharmD Program

Application and Deadline: Campbell University School of Pharmacy is utilizing PharmCAS, an on-line application service, for our admissions process. Beginning June 1, 2006, you may access their website, www.pharmcas.org, to complete the application for the 2006-2007 application cycle. Your application, official transcripts, and PCAT scores will all be submitted through PharmCAS. When your application packet is completed, PharmCAS will release your information to Campbell University. For questions regarding your PharmCAS application, please contact the PharmCAS Student Help Line at (617) 612-2050 or email at info@pharmcas.org.

**PLEASE NOTE: A final decision regarding the letters of reference will be posted no later than June 1, 2006**

In addition, you will be responsible for supplying Campbell University School of Pharmacy with a completed Supplemental Application (including a $25 fee) The Supplemental Application will be available on June 1, 2006 as well.

Please forward the materials to:
Campbell University School of Pharmacy
Office of Admissions
PO Box 1090
Buies Creek, NC 27506

Combined Program Options:

Joint PharmD/Masters of Science in Clinical Research (MSCR)

The School of Pharmacy provides an opportunity for PharmD students to pursue a Masters of Science in Clinical Research concurrently with the Doctor of Pharmacy Program. Students must meet the qualification of both programs separately. The MSCR degree is earned through the School of Pharmacy's Division of Clinical Research. The joint degree is designed to prepare pharmacy students for positions which require not only the knowledge of pharmacy practice but also the breath and depth of clinical research. Students must be accepted into each program separately and it is highly recommended that pharmacy students be accepted into the PharmD program prior to applying to the MSCR program. The MSCR program is a non-traditional program that offers all courses in the evenings in the RTP area and provides videoconferencing to the main campus for select courses. We encourage all students with a strong interest in clinical research to consider the joint PharmD/MSCR program.

Joint Pharm. D. /M.B.A. Degree Program

Campbell University provides an opportunity to pursue a Master of Business Administration Degree concurrently with the Doctor of Pharmacy program, for students who meet the qualifications. The M.B.A. degree will be earned through the Lundy-Fetterman School of Business. This joint program is designed to prepare students for positions which require considerable breadth and depth of knowledge in pharmacy practice and business administration. The rapid evolution of health care systems requires not only an in-depth
understanding of pharmacy, but also the principles and applications of business administration skills in pharmacy, health care, and pharmaceutical industry settings. Students in the combined program may apply the pharmacy administration credits earned in the Pharmacy School towards the requirements of the M.B.A program. This allows students to complete the program in less time than required to complete each program individually. Also, students have the option to design, in collaboration with his/her business and pharmacy advisors, a directed research project in health care administration area. This allows the student to apply pharmacy and business principles to an administrative health care problems. This option is not typically available to students pursuing separate Pharm. D. and MBA degrees. Since students will most likely complete the Doctor of Pharmacy Degree first, the business courses are also offered at Campbell's five satellite campuses located in central and eastern regions of North Carolina. This allows pharmacy graduates to seek pharmacy employment while finishing the M.B.A. requirements.

Basic Admitting Info and Requirements:

- **GPA** - The **minimum GPA is a 2.5** on a 4.0 scale. The average GPA of entering first year students is, on average, a **3.4** on a 4.0 scale.

- **PCAT Scores** - The School of Pharmacy does not require a minimum score. However, the Admissions Committee prefers to see scores at or above the **65 percentile** range. To register for the PCAT or get information, please call the Psychological Corporation at 1-800-622-3231 or visit [www.pcatweb.info](http://www.pcatweb.info).

- **Application Deadlines** - There is a priority deadline of **November 1st** that applicants are strongly encouraged to meet; however, our **final deadline is March 1st** for the application and supporting materials to be turned in to the Office of Admissions.

- **Admissions** - Qualified applicants are admitted to the School of Pharmacy on an ongoing basis until the class is filled. Applicants are strongly encouraged to submit all required admissions documents early in the academic year to maximize their admissions potential. After your application is complete and you have been interviewed, the Admissions Committee will decide on your application. You should be notified of your admissions status by letter within 30-45 days. This status cannot be obtained over the telephone.

- **Credit Requirements** - A minimum of 64 semester hours of pre-pharmacy requirements are needed for admission to the School of Pharmacy. Completion of a bachelors degree will make you a stronger applicant.

- **Letters of Recommendation** - All applicants are required to submit at least three letters of recommendation. Requesting additional letters is encouraged to ensure that at least three are received. You can either send them directly to the Admissions Office at Campbell University or you can utilize PharmCAS letters of recommendation tool.

- **Application Spots** - For the 2005 application cycle, we received over **1600 applications for 100 places** for the incoming class.

**Prerequisite Courses** - Please contact Campbell with specific questions

**Minimum Required Courses:**

- *ENG 101 and an additional English course*

- *Religion (3 hours) – any religion course*

- *Humanities (6 hours) – choose from literature, philosophy, music, fine arts, foreign languages*

- *Social Sciences (6 hours) – choose from history, political science, psychology, sociology*
• Economics or Accounting (3 hours) – microeconomics or general accounting

• Physical Education (2 hours)

• Calculus –
  o MA 121, 131, or 141

• Physics (4 hours)
  o Physics 211, 205

• General Chemistry (8 hours) –
  o CH 101/102 and CH 201/202

• Organic Chemistry (8 hours) –
  o CH 221 and CH 223 and labs

• Biological Sciences (minimum 8 hours but prefer more; 12 hours strongly recommended)
  o Suggestions: BIO 181/183 or ZO 160, 212, 414, 421; MB 351, 411; BCH 451, GN 411, BIO 495 A&B

• Electives (7 hours) Suggestions: statistics, other advanced biology or chemistry courses

Clinical Experience:

It is not a requirement for admission that you have worked in a pharmacy prior to beginning school; however, applicants who have pharmacy and/or health care experience typically fare better during the interview sessions because they know more about the profession. If you do not have any pharmacy experience, consider volunteering, shadowing a pharmacist, or speaking extensively with a variety of health care providers prior to your interview session.
