    Betty Coleman, 116 Kilgore Hall, 515-3189, Betty_Coleman@ncsu.edu

Equipment Overview

- Document Camera
- Ceiling Mounted LCD Projector
- PC and Monitor
- VCR
- Laptop inputs
- USB Flash Drive Extension cable
- PC and VCR Audio through ceiling mounted speakers
- Assistive Listening available
Computer Access

1. Enter your Unity ID into the box labeled “Username”.
2. Enter your password into the box labeled “Password”.
3. Press “OK” or Enter.
4. Enter your password.
5. Once the login process is complete, you will be able to navigate to any application to which you have rights.

Guest Computer Access

Should you experience trouble logging in via the Novell Network, please try our guest log in. This will enable you to use PowerPoint and other MS Office applications. We also encourage instructors to bring their PowerPoint presentations (or other material) on CD or USB Flash Drive.

(Must be followed in this order)
1. In the Novell Application Launcher window, check the box "Workstation Only"
2. Enter "guest" into the username field
3. Leave password field blank
4. Click the "OK" button
5. Insert CD or USB Flash Drive
6. Double click the PC icon located in the upper left of the screen
7. Locate and double click on the appropriate drive
8. Select your file and double click to open

Adjustable Lighting

- The room is equipped with dimmable lighting. The primary power switch for the dimmer is located beside the backdoor of the classroom. The dimmer switch, with a secondary on/off switch, is located beside the door at the front of the classroom.

Screen

- The projection screen is controlled by a switch located beside the door at the front of the classroom.
Projection Instructions

Projection from the Computer:

- The monitor and PC should already be on.
- On the left side of the lectern is a switch box; press the button labeled “PC”.
- If the computer image is not projected, press the “Input” button on the remote until you see the desired image.

Projection from the VCR:

- Press the “Power” button on the VCR.
- Insert the videotape.
- If the VCR image is not projected, press the “Input” button on the projector remote until you see the desired image.
- When you are finished viewing the video, press the stop button on the VCR. Eject your tape and turn the power off to the VCR.

Projection from a Laptop:

- From the lectern top, locate the VGA and Ethernet cables and attach them to your laptop.
- Press the button on the switch box to the position labeled “Laptop.”
- If the laptop image is not projected, press the “Input” button on the projector remote until you see the desired image.

Projection from the Document Camera:

- Press the “Power” button on the Document Camera.
- Turn on the VCR and set the channel to L-1 or F-1.
- If the image is not projected, press the “Input” button on the projector remote until you see the desired image.
Keyspan Presentation Remote

This remote will advance and reverse Power Point slides, control the PC mouse, and has a laser pointer.

The black thumb switch located on the side of the unit controls Power Point slides.

To activate the laser:

- Hold down the white button and the small blue button until the white button flashes red.

End of Class

- Aim the remote at the projector and press the “On-Off” button. When the “Power Off” message appears on the screen, press the “On-Off” button again.
- Log out of the computer. Double-click the red icon of the desktop labeled “Logoff”.
- Do not turn the power off to the Monitor or the PC.
- Power off the VCR.
- Turn off the Document Camera.
- Return the remote controls to the lectern.
