CALS AWARDS FOR EXCELLENCE
You're invited to the College of Agriculture and Life Sciences Awards for Excellence Luncheon scheduled for Thursday, April 5, 2007, 12:00 p.m., University Club, Raleigh, NC. Please join us in supporting and celebrating with our winners on April 5!! If you would like to attend, tickets are $15.00. Please make your check payable to NC State University and RSVP by 12:00 p.m. on Wednesday, March 28. Checks should be forwarded to Helen Crane, CALS Dean's Office, Box 7601, NC State University, Raleigh, NC 27695-7601.

This year's winners are:

**On-Campus Supervisory/Administrative**
Julia C. Brooks  
Alumni & Friends Society

**On-Campus Supervisory/Administrative**
Tom E. Mease  
Administration, NC Cooperative Extension

**On-Campus Secretarial/Clerical**
Dee Ann Cooper  
Department of Soil Science

**On-Campus Technical**
Michael E. Adcock  
Department of Biological and Agricultural Engineering

**On-Campus Technical**
Kimberly J. Hutchison  
Department of Soil Science

**Off-Campus Secretarial/Clerical**
Pam Brylowe  
NC Cooperative Extension – Jones County

**Off-Campus Technical/Supervisory**
No Nominations

**EPA**
Patricia Buddin  
Academic Programs – Career Services

We will also be recognizing the following Pride of the Wolfpack winners:
Jeffrey Carpenter - Southwest District, Catawba County
Diane Ducharme - West District, Henderson County
Charlotte Glen - Southeast District, Pender County
Cheryl Howard - CALS Personnel
Suzanne Hugus - Extension Administration
Kasimu Ingawa - Dairy Records Management Services
Lori Ivey - South Central District, Stanly County
Sandra Kelly - South Central District, Bladen County
Lucia Flint Kossler - Administration, CALS Business Office
Sarah Frances Little - Southwest District, Catawba County
Wanda Mills - Southeast District, Onslow County
Thomas Moreno - Horticultural Science
Jeffrey Morton - Southeast District, Onslow County
Sherry Mosher - Agricultural and Extension Education
Anne Napier - Mountain Horticultural Crops Research and Extension Center
Heather Odom - Northeast District, Northampton County
Jessica Tice - Northeast District, Chowan County
Pamela Wells - Agricultural and Extension Education
David Scott Whitley - Crop Science
Curtis Ross Young - Western District, Madison County

**J.C. RAULSTON DISTINGUISHED PROFESSORSHIP**
Congratulations to Dr. Dennis Werner for being named as our second J. C. Raulston Distinguished Professor effective April 1, 2007. This professorship was established in 1998 by C. D. and Meredith Spangler in honor of the late J. C. Raulston. Private funds and a matching grant from the Board of Governors Distinguished Professors Endowment Trust Fund were used to establish the professorship.

Dr. Werner is a professor in the Department of Horticultural Science and serves as Director of the J. C. Raulston Arboretum.

**ANNUAL EVALUATIONS OF ADMINISTRATORS**
The URL's for annual evaluations of administrators by department heads and department heads by faculty have been sent out. Surveys will close at 5:00 p.m. on Thursday, April 5, 2007. Please encourage people to fill out the surveys. Responses are anonymous.

**2007 UNIVERSITY OPEN HOUSE**
Our 2007 University Open House has been scheduled on Saturday, October 20, 2007. As details are finalized, this information will be added to the following website:

http://www.ncsu.edu/openhouse/

**ACADEMIC PROGRAMS OFFICE**

1. The last day prospective students can participate in the CALS Spend a Day at State program is Wednesday, April 11, 2007. We have had a great year with over 115 campus visitors. Our
office appreciates your willingness to welcome students into your classroom for observation and to meet with families about academic programs relevant to their student’s interests. The personal touch our College offers makes a difference and has a huge impact on both students and parents. Thank you for your continued support.

2. As the semester winds down, we wanted to let you know we have two visitation days planned for April. Each year, one of the highlights of the day is the time you spend chatting with future students and their parents. They learn about you and your programs in research, teaching and extension. We ask that you mark these dates on your calendar, and are particularly interested in having you attend from 8:30 - 9:30 a.m. for refreshments, visiting, and introductions of faculty, staff and administration to the visitors. Additional correspondence will be provided at a later date regarding time, location, and your participation. Please know that visitation opportunities will also be available during scheduled lunches, but access may be limited to early responders for each event since space will be limited.

- Friday, April 13, 2007 - Senior Accepted Visitation Days
- Friday, April 20, 2007 - Junior Visitation Day

3. The Undergraduate Teaching and Research Symposium will be held Tuesday, April 17 from 9:00 a.m. to 4:00 p.m. at the McKimmon Center. Lunch will be provided for mentors and student presenters from 12:00 noon until 1:30 p.m. Student abstracts are due no later than 12:00 midnight on Monday, April 9.

To submit a TEACHING abstract, go to:
http://www.cals.ncsu.edu/academic/ugts/abstract.html

To submit a RESEARCH abstract, go to:
http://www.ncsu.edu/ugrs/2007_Spring/abstract.htm

To reserve a poster printing time, go to:
http://ceres.cals.ncsu.edu/SpringUGRS2007/login.cfm

Please encourage faculty, staff and students to attend the Symposium.

4. You are invited to attend the College of Agriculture and Life Sciences "Celebration of Teaching and Advising" event on Monday, April 16 from 4:00 p.m. until 5:30 p.m. The event, sponsored by the CALS Teaching and Advising Effectiveness Committee, will be held at the J.C. Raulston Arboretum. The event will include the following:

- Reception from 4:00 to 4:30 p.m.
- Dr. Keith Karnok, Professor of Crop and Soil Science at the University of Georgia, has been invited to present a seminar on "The real 'secret' to becoming a super successful teacher." Dr. Karnok is also past president of the National Association of Colleges and Teachers of Agriculture (NACTA) and has a most unique way of delivering his message.
- Recognition of all 2006 CALS Teaching and Advising Award Recipients and 2007 Nominees.

Faculty, staff, graduate students and undergraduates participating in the Teaching Symposium are invited to attend. Please RSVP to http://harvest.cals.ncsu.edu/index.cfm?showpage=806
5. The CALS Teaching and Advising Effectiveness Committee will host an information session on the use of FANG - Fellowship Advising Net Gizmo by Jenny LaMonte on Wednesday, April 25 in 216 Scott. Students may ask you to provide recommendations, etc., this summer or early fall so this is an opportunity to access the system and learn more about it.

Fellowship Advising works with students from across the University to support applications for external funding. NIH graduate support, NSF Grad Research Fellowships, Goldwater and Udall Scholarships, and summer REUs are only a handful of the programs for which we offer assistance. NC State faculty now have a tool to help bring these programs to potential candidates' attention, encourage students as they move through the process, and fully exploit the services of Fellowship Advising. The Fellowship Advising Net Gizmo (FANG) is a powerful web-based interactive tool available to all NC State faculty and students. The most effective prompt for successful candidacies comes from a faculty member.

If you would like to learn more about FANG and how to use it, please join us for an informal workshop on Wednesday, April 25 from 11:30 a.m. to 1:30 p.m. The agenda includes a brown bag lunch from 11:30 a.m. until noon and then, from noon until 1:30 p.m., we'll move to 105 Scott for the computer hands-on portion of the workshop. You may also bring a wireless laptop computer.

Send Jennie LaMonte, Fellowship Advising, (jennie_lamonte@ncsu.edu), your name and unity username, she will give you access to FANG, and you can begin the process of exploration prior to the workshop. If you are unable to attend the workshop, but have a few colleagues who would like to join you for a 20-minute introduction, please send Jennie an email with a suggested date and time. Her office hours are Monday, Tuesday, and Thursday afternoons, 2:00 to 5:00 p.m.

6. At the conclusion of the 2007 Spring Semester Advising period, please remind your students to complete the online adviser evaluation survey. The URL for the student evaluation is:

   http://ceres.cals.ncsu.edu/studentevalforms/1index.cfm

The URL for advisers to review the results of student evaluations is:

   http://ceres.cals.ncsu.edu/adviser/

7. The 2007 Spring Commencement Exercises will be held at the RBC Center on Saturday, May 12. Festivities will begin at 8:30 a.m. with a concert by the Amalgam Brass Ensemble. Graduation Exercises will start at 9:00 a.m. The distribution of diplomas to our graduates will take place in departmental ceremonies as listed below. With the exception of those marked with an asterisk, all departmental graduation ceremonies will begin at 1:30 p.m.

   Agricultural Business Management and Biological Business Management………………3400 Nelson Hall
   Agricultural and Extension Education……………… Mt. Olivet Baptist Church, 3500 Edwards Mill Road
   *Agronomy, Turfgrass Science, Crop Science, and Soil Science (1:00 p.m.)…………2215 Williams Hall
   Animal Science……………………………………………………………Room 2, McKimmon Center
   *Biochemistry (4:00 p.m.)……………………………………………………………Room 2, McKimmon Center
   Biological and Agricultural Engineering…………………………… Pavilion, D. S. Weaver Laboratories
   *Biological Sciences (3:00 p.m.)……………………………………………………………Reynolds Coliseum
Environmental Sciences

*Food, Bioprocessing and Nutrition Sciences (1:00 p.m.)……Pittman Auditorium, St. Mary’s College

Horticultural Science……..J. C. Raulston Arboretum, Ruby McSwain Education Center

*Microbiology (4:30 p.m.)………………………………..Cinema, Witherspoon Student Center

Natural Resources……………………………………….Location of Major Faculty Adviser

Nutrition Graduate Program………………………………Location of Major Faculty Adviser

Physiology Program……………………………………..Location of Major Faculty Adviser

Plant Biology…………………………………………3712 Bostian Hall

Poultry Science……………………………………….Erdahl-Cloyd Theater, D. H. Hill Library

Applied Sociology, Criminology……………………..Athens Drive High School Auditorium

*Zoology (3:00 p.m.)……………………………………Reynolds Coliseum

(Note: Information on the Agricultural Institutes’ Commencement Ceremony is provided below under the Agricultural Institute Office’s section.)

Agricultural Institute Office

1. The Alumni Committee of the Agricultural Institute will host the Senior Breakfast on Wednesday, April 25 for students graduating in May 2007. The breakfast will be held in 2405 Williams Hall beginning at 7:30 am. We are thankful to the current AGI students and faculty who will prepare the food for us that morning. Faculty are encouraged to visit the following website to indicate their attendance:

   http://harvest.cals.ncsu.edu/index.cfm?showpage=732&eventid=6

2. The Agricultural Institute Commencement Ceremony will be held Friday, May 11, 2007, in Stewart Theatre at the Talley Student Center. The ceremony will begin at 3:00 p.m. AGI Faculty and AGI Department Heads will be introduced at the ceremony and are encouraged to attend. Please visit the following website to RSVP:

3. The AGI Visitation Day held on March 23 was a HUGE success!! Thank you to everyone who assisted with this event. We hope to continue hosting events such as this for years to come.

Career Services

1. Our annual Dining Etiquette and Fashion Show, sponsored by Kraft Foods, will be held on April 11, 2007. Students can still sign up but seats are going fast! Interested students should come to Patterson 111 to sign up and receive their ticket.

2. Our 2007/2008 CALS Ambassadors have been chosen! Nineteen new faces were added to the team for the upcoming year. On top of working with prospective students, current students, parents, and friends of the college, this team will also be hosting the 2008 National Agriculture Ambassador Conference here at NC State.

3. The 2007/2008 R.E.A.C.H. Team will be announced at the beginning of April. R.E.A.C.H. stands for Recognizing Educational Aspirations and Career Horizons. The team was formed in order to reach a greater number of CALS students with the services and opportunities we provide. We look forward to adding more outstanding CALS students to the team.
Program News

2007 Extension Conference

The 2007 Extension Conference was held March 12-14, 2007 at the McKimmon Center for Extension and Continuing Education. Several educational sessions were held for faculty of the following units: NC Cooperative Extension, Science House, NC Industrial Extension Service, Sea Grant, Small Business Technology and Development Center, and McKimmon Center. The closing luncheon on Wednesday featured Deans Alton Thompson and Johnny Wynne, Chancellors Lloyd Hackley and James Oblinger, and President Erskine Bowles. Many thanks to everyone who participated in this conference.

Community and Rural Development Collaboration

On March 19, representatives of NCSU, NCA&TSU, UNC-Chapel Hill and Duke University met to follow-up on findings of the NC Cooperative Extension Rural Roundtable held in October 2006. Partnership efforts will be emerging as a result of the meeting to develop multi-institutional approaches to address needs in communities served by the universities. The collaboration will serve as a model for urban and rural outreach and engagement efforts. For more information, contact Dr. Ed Jones or Dr. Susan Jakes.

Urban County Extension Directors

The Urban County Extension Directors Workgroup will meet on April 13, 2007 in 512 Brickhaven. The workgroup will review the status of its 2003 White Paper and 2005 Strategic Plan for recommendations for future direction. The team will discuss potential partnerships and roles in the state's metropolitan regions and within the universities. The group represents 18 North Carolina counties in the state's Metropolitan Statistical Areas.

NCCES Partnership with Moldova

NCCES developed a MOU with the Moldovan National Agency for Rural Development in 2006. This agency, founded in 2001, created an educational system for training agricultural producers based on the US Cooperative Extension model. The agency was created with funding from World Bank and others and the funding runs out in 2010. In March 2007, Dr. Joe Zublena and Dr. Bob Wells, Extension Director Emeritus, visited the country to assess the program and to determine possible collaborative efforts. Key groups visited during the stay included USAID, World Bank, IREX, CNFA, US Peace Corps and the US Ambassador to Moldova.

Awards and Recognition

Please join us in congratulating the following NC Cooperative Extension Service Award Winners!

The 2006 Scholarship & Award Program winners were honored at Extension Conference.

Carolyn Stanley Barnes and George Edward Barnes
4-H Graduate Education Scholarship
Peggie Lewis, Guilford County

Chet and Lucy Black 4-H Professional Development Scholarship
Patricia Cahoon, Carteret County

Edgar J. and Ethel B. Boone Adult Education Award
Martha Mobley, Franklin County
The NCCES Foundation Search for Excellence Award winners were honored at Extension Conference.
Sue Counts, Watauga County

**Agriculture**
Wendy Garner and Mitch Smith, Pitt County

**Family and Consumer Education**
Sandra Kelly, Angela Shaver and Kathy Cooper, Bladen County

**Program Assistants and Technicians**
Fran Senter, Lincoln County

**Secretaries**
Christine C. Barrier, Cabarrus County

**Specialists**
Ken Ellzey, Communication Services

**Community Development**
Shannon Coleman and Jessica Roberson, Cherokee County
Robert Hawk, Haywood County

**Resource Development**
Spring Williams, Burke County

**Personnel Updates**

Interviews will be scheduled shortly for the Extension Associate, Food Safety and Extension Associate, Small Business Development and Management positions in Kannapolis, NC.

**NC AGRICULTURAL RESEARCH SERVICE**

**Town Hall Meetings**
Dr. Steven Leath, who has been assigned oversight of the Kannapolis Project, will be hosting two Town Hall Meetings to discuss the North Carolina Research Campus (NCRC) and NC State's role there. Dr. Leath will give a brief presentation, then open the floor for questions and discussion.

The dates, times and locations are:
- March 28, 2007, 12:15 p.m., 2405 Williams Hall
- April 9, 2007, 1:00 p.m., Lecture Hall, Toxicology Building, Centennial Campus

These times were selected at the lunch hour to alleviate interruption of everyone's already busy schedules. Please share this announcement with anyone who may be interested.

**North Carolina Research Campus Conference**
A conference to showcase the Kannapolis Project to outside organizations will take place on April 16-17, 2007 at the University of North Carolina - Charlotte campus and includes a tour of the Kannapolis site.
Weed Science Society of North Carolina
The Weed Science Society of North Carolina met on March 8, 2007 at the JC Raulston Arboretum at North Carolina State University. Their program was focused on herbicide resistant weeds in North Carolina’s crops. Scientists believe that herbicide-resistant weeds may change the way our farmers farm in North Carolina. One of the worst problems facing North Carolina’s growers is the glyphosate-resistant Palmer amaranth. Glyphosate is the active ingredient in Roundup, a commonly used herbicide in glyphosate-resistant crops. Scientists in the Departments of Crop Science and Horticultural Science are working to find a solution to this threatening situation. Palmer amaranth can grow as much as 2 inches per day and an individual female plant can produce over 500,000 seeds. This weed reduces yield drastically and interferes with harvest.

A significant effort by scientists in the college is occurring to develop control programs for herbicide-resistant weeds in cotton, sweet potatoes and other crops.

NC State University Feed Science Advisory Board Convenes
Feed Science Advisory Board and associated faculty and staff convened for a preliminary planning session on February 21. The group included Feed Milling Initiative Platinum level donors Bruce Calloway of Perdue, Robbie Upton of Syngenta, Jeff Turner representing the NC Agricultural Foundation, Inc., and Rob Payne of Degussa. Dan Warren represented the Feed Mill Advisory Committee and Capital Campaign. Those present began the nomination process for additional members of the board. The full Feed Science Advisory Board will convene on November 12, the date of the grand opening of the Feed Mill.

At the close of the meeting, Rob Payne represented Degussa in the signing of a feed milling scholarship endowment as a part of their gift to the feed science initiative. Naming opportunities and opportunities for partnership in the College of Agriculture and Life Sciences Feed Milling Education Initiative are still available.

2007 Celebrate NC Wines Committee Kick Off
The 2007 Celebrate NC Wines! Steering Committee kicked the year off with an organizational meeting on March 14 at Chatham Hill Winery. Co-chairs Fairley and Dan Cooke chaired the meeting, and they announced a $5,000 lead sponsorship from the Bell Foundation. The new and confirmed date for Celebrate NC Wines! is Sunday, October 7, 2007. The event is co-sponsored by the NC Grape and Wine Council, and is focused on promoting NC wines and raising funds for wine-related research.

Dairy Producers Forum
Roger Crickenberger, Barbara Kirby, Ed Jones, and Roger McCraw represented the College as members of a panel entitled Dairy Opportunities at NC State University at the NC Dairy Producers Association. Panel member gave updates on research, teaching, and extension programs serving the dairy industry, and answered questions from the audience. Roger McCraw announced his intention of initiating a dairy overview to coincide with the current industry-wide study, and to address some of the questions raised at the meeting.

Recent Plant Variety Releases
Plant breeders in NCSU-NCARS continue to produce and release a variety of new or improved plant cultivars that will enhance the profitability of plant production, improve the quality of fruits and vegetables and generate other benefits related to livestock and bioenergy production.

NCARS and USDA-ARS recently approved release of 'Performer' and 'BoMaster' improved
switchgrasses. 'Performer' has enhanced dry matter digestibility and digestible dry matter yield per acre; it offers benefits where improved animal performance is desired. 'BoMaster' was selected for its high biomass and high cell wall production, as well as greater yield per acre. It may be most useful for improved forage production or high biomass yield for conversion to biofuels or other uses. These varieties were developed by Drs. Joe Burns and David Timothy of the Department of Crop Science, and Dr. Brent Godshalk with BASF Plant Science. Invitations are being made to forage crop seed companies for proposals to produce and market the seed.

North Carolina State University and NCARS has recently approved the release of a number of oriental crisp-flesh melon hybrids, along with the inbreds developed by Dr. Todd Wehner, and is making these materials available to those interested in using them commercially or for research. In addition, we are seeking competitive bids for exclusive production, marketing and sales rights to these specialty melon cultivars and inbreds.

The following hybrid and inbreds are available:

- NC-Sparta F1 hybrid oriental crisp-flesh melon (medium-size, elongate fruit)
- NC-301 inbred oriental crisp-flesh melon
- NC-304 inbred oriental crisp-flesh melon
- NC-Sapphire F1 hybrid oriental crisp-flesh melon (large, elongate fruit)
- NC-303 inbred oriental crisp-flesh melon
- NC-309 inbred oriental crisp-flesh melon
- NC-Star F1 hybrid oriental crisp-flesh melon (small, elongate fruit)
- NC-302 inbred oriental crisp-flesh melon
- NC-305 inbred oriental crisp-flesh melon
- NC-Stella F1 hybrid oriental crisp-flesh melon (small, round fruit)
- NC-302 inbred oriental crisp-flesh melon
- NC-306 inbred oriental crisp-flesh melon

Dedication -- J. Edward Booth Field Learning Laboratory
The new J. Edward Booth Field Learning Laboratory and the Rollin Johnson and T&J Panel Soils and On-Site Wastewater Classroom will be dedicated with a ceremony on April 26, 2007 at 8:00 a.m. This dedication coincides with the “On-Site Waste Water Treatment Conference” that is being held locally. Located on the CALS University Field Laboratories on Lake Wheeler Road, the facilities to be dedicated represent approximately one half of a recently completed cooperative training facility building project in support of several applied research and training programs offered by the Departments of Soil Science and Entomology to their respective clienteles.
For additional information, please contact Kathy Kennel (Kathy_kennel@ncsu.edu or 919-515-9259.

Animal and Poultry Research and Teaching Complex
The final round of inspections of the Animal and Poultry Research and Teaching Complex has been completed and the College has approval to occupy and use the buildings. The final upfit of the swine nutrition building with feed and water systems will be completed over the next few months.

The poultry phase of the complex is already completed and operational. The teaching flocks are housed in one of the two poultry buildings and the teaching building is currently in use for classes in judging, product quality evaluation, and other teaching and research activities.
Feed Mill
The CALS Feed Mill equipment installation is nearing completion; CAMS stickers were applied to most of the equipment last week. Installation of the remainder of the bulk and internal bins is anticipated by mid April and installation of the automated milling control system and software are underway. Mr. Frank Bradley, Project Manager, and Dr. Charles Stark projected that the mill should be ready for operation by mid or late summer.

COLLEGE ADVANCEMENT

Legacy Gifts
At a recent conference, the closing speaker asked the group of 600 attendees who could tell him the names of their four grandparents. About 100 people raised their hands. Then he asked who could name all eight of their great grandparents. Only two people in the entire audience raised their hands. His response was “Well then that’s all there is…within two generations after your death, no one will remember who you were or what you stood for!” He went on to point out that the only way for us to be remembered was to make a “Legacy Gift” to a charity of our choice in order to ensure that our beliefs, values and, yes, even our names continue forever.

In the College of Agriculture and Life Sciences, Legacy Gifts can range from a $15,000 scholarship or programmatic endowment to $25 million to name the entire College. Your Legacy Gift may be funded through something as simple as a codicil to your will or through gifts of cash or appreciated assets including real estate and securities. These gifts can also provide you and members of your family with lifetime income, charitable deductions and reduced estate taxes.

To learn more about Legacy Gifts in the College of Agriculture and Life Sciences, contact the CALS Advancement Office at 919.515.9262 or visit our website at http://www.cals.ncsu.edu/advancement/index.htm.

Gift Planning Web Site
To serve faculty and staff with helpful information, we have created a comprehensive gift planning Web site. We have an increasing number of friends of the College who now are benefiting from life income gifts, gift annuities and other charitable vehicles. Thank you for taking the time to explore the benefits of gift planning at http://cals.giftlegacy.com/.

You may support any area of the College and join or renew your Arboretum membership online using our secure website. Visit http://www.cals.ncsu.edu/givenow for safe, convenient online giving!

Employee Retiree List
We need your help! We request that all departments and county offices please continue to send us your updated retiree lists, with all contact information available. Once an employee retires, just send Julia Brooks (julia_brooks@ncsu.edu) a quick e-mail letting her know so that she can add them to our list.

Advancement Advantage Guide to Services
College Advancement is pleased to announce the availability of our Advancement Advantage Guide to Services on-line. This information is designed to educate CALS faculty, staff and administrators about the resources available through these divisions. By doing so, we hope to expand access to our services, and increase support of and service to departments and college-wide initiatives. This web site is a
work in progress and will be updated on a regular basis. To access this information, just click on the following link http://www.cals.ncsu.edu/advancement/resource_guide.htm

CALS Tailgate 2007!
Please mark your calendars for CALS TAILGATE 2007 for Saturday, September 1 to be held in Dorton Arena, NC State Fairgrounds. Time to be announced in conjunction with NC State vs. Central Florida football kick-off time. More information will follow. Check AFS website for more updated information: www.cals.ncsu.edu/alumni or contact Julia Brooks in the Alumni & Friends office at 919-515-6212.

CALS Faculty/Staff Retiree Luncheon
The CALS Faculty/Staff Retiree Luncheon is scheduled for Saturday, December 8, 2007 in the Jane S. McKimmon Center from 11:00 a.m. to 1:00 p.m.

CALS PERSONNEL -- MARCH NEW HIRES
New Employees – Campus
Megan Rebecca Ulmer, Research Technician, Genomics Research Laboratory
Cassandra Schefe, Visiting Research Scientist, Soil Science
Shirley Marie Forsyth, Research Technician, University Field Laboratories

New Employees – Cooperative Extension (County Operations)
Nekeidra F. Morrison - Assistant Extension Agent, Durham County
