Research Seminars and Q&A: Water Resources Faculty, Biological and Agricultural Engineering

**Di Tian**  
Postdoctoral Research Associate, Civil & Environmental Engineering  
Princeton University  
**Hydroclimate Modeling and Forecasting Under Global Change: Implications for Water Resources Engineering**  
Research Seminar & Q&A: *Monday July 11 - 9:00 - 10:00 in Weaver 158*

**Mark Bartlett**  
Research Assistant & PhD Candidate, Civil & Environmental Engineering  
Duke University  
**Crop water use and runoff in agricultural watersheds under hydro-climatic variability**  
Research Seminar & Q&A: *Thursday July 14 - 9:00 - 10:00 in Weaver 158*

**Anna Linhoss**  
Assistant Professor, Agricultural & Biological Engineering  
Mississippi State University  
**Managing water resources in coupled, dynamic systems**  
Research Seminar & Q&A: *Monday July 25 - 9:00 to 10:00 in Weaver 158*

**Chadi Sayde**  
Postdoctoral Research Associate, Biological & Ecological Engineering  
Oregon State University  
**Every drop counts, so count every drop!: Multi-scale Tracking of Water Movement Through the Soil-Plant-Atmosphere Continuum.**  
Research Seminar & Q&A: *Thursday July 28 - 9:00 to 10:00 in Weaver 158*
